space for horses

A brand presents itself

**equitent** |  
trademark of the RÖDER GROUP

space for horses

Only the first cross borders and set standards. With clear and efficient solutions we position ourselves as the leader in innovation with a clear vision for the future, through excellent know-how, and several decades experience in the mobile space solutions industry.

## equitent - room for horses

**equitent** was developed in close co-operation with horse breeders, riding clubs and boarding stable owners. Advanced engineering standards and the lightness of textile structures combine to provide riding and lunging halls.

**equitent** is a brand of the RÖDER GROUP, we have several decades of experience in production, sale and rental of clear span tents and halls.

## equitent - spa for horse and rider

The intention of our development is to create bright, friendly and affordable structures. Translucent textile covering allows the daylight through and mesh side windows guarantee splendid views. Combined they reduce energy costs and you enjoy the feeling of freedom and nature in a covered riding hall.

## cavarena - Lunging in all weather

A big problem for lunging of horses is of course, if the riding hall is already occupied with other riders

Often at the end of the working day or at the weekend the space in the riding hall is not enough to accommodate all of the riders and the lunging. Lunging under bad weather condition and in darkness outside is not possible, which led us to develop the lunging hall **cavarena**, providing the opportunity for lunging horses throughout the whole year in perfect conditions.

## cavarena – therapeutic riding all the year

Therapeutic riding is important for working with handicapped persons and should be take place continuously, ongoing cancelled riding due to weather conditions are not conducive to good treatment or indeed good business.

## cavola - Year round riding lessons

The chance to ride all the year unaffected by weather conditions is the wish of many riding fans and each cancelled riding lesson means financial losses and frustrated riders.

Through a financial contribution by your customers, you create additional financial flexibility for the realization of this project. The basic design only is not a riding- or lunging hall, some additional options are also available for regular riding.

We are happy to provide you with the required components such as band, lighting, gutters from a single source.

The riding hall cavola offers independence and creates value for your customers.

## equitent – Complete service in installation and financing

We provide riding- and lunging halls in standard clearspan widths from 15m to 21m (larger sizes are available on request) and multiple lengths at short notice and with quick installation times. Our modular system offers the ability for extension at any time, so that you are able to start with a small unit and expand as your requirements grow.

Our on-site consultation and your dedicated advisor guarantees a successful installation and implementation of your project. Our products are calculated according to stringent engineering standards, with all drawings and static calculation documents included in the project delivery.

**equitent** offer financial packages for your project, such as leasing or hire-purchase financing. Our sales team has the experience to offer the perfect solution for your project. Contact us for more information or to discuss your specific requirements.
